

ALL I NEED

Music/Text by: Mckinley Black

All I need is love and understanding
to keep a smile on my face
and all I want is to have you here beside me
to help me through the harder days

VERSE:

G D Am C

And if I'm on the street and stop to find you lonely
I'll have some love to give away
'cause all we're looking for is strength to face our sorrow
if it should stand in our way

So give me the love in your heart so I can be strong
stronger than I was before you came along
and I can do anything 'cause you believe in me
no matter what i have to face your love will carry me

CHORUS:

AM C G D

All I need is to be happy
to keep me laughing while it's raining
and all I want is for you to wrap your arms around me
keep me feeling safe and warm

And if I stumble through, lose my step or falter
I know I have a friend in you
'cause all we're looking for is some kind of peaceful harmony
with ourselves in the world

So give me the love in your heart so I can be strong
stronger than I was before you came along
and I can do anything 'cause you believe in me
no matter what i have to face your love will carry me

All I know is your something really beautiful
and it's all so good whenever you're around
