

MY BEST

Music/Text by: Mckinley Black

Everythings changing
I'm re-arranging
I'm wandering in my whereabouts
and I keep thinking
have I missed something
what more could I have done

I tried my best
but it didn't work out
and I don't know what
I'm going to do now

You're from the city
from concrete buildings
that rise in uniform across the sky
and I'm like a Gypsy
I keep traveling
following love

I tried my best
but it didn't work out
and I don't know what
I'm going to do now

It seems so strange
to think that I'll never have you in my arms again
hard to believe the dream is gone

I'm in the middle of some kind of riddle
there's questions I need the answer to
I look for an escape route
somewhere I can go to
but the only way out is through

I tried my best
but it didn't work out
and I don't know what
I'm going to do now
